## Note 2 Significant Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. The following is a summary of the Company significant accounting policies:

#### Reclassifications

Certain prior year amounts have been reclassified to conform to the current year financial presentation.

## Principles of Consolidation

The accompanying consolidated financial statements include the operations of the Company, DHCM, and DHGP. All material inter-company transactions and balances have been eliminated in consolidation.

#### **Segment Information**

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, establishes disclosure requirements relating to operating segments in annual and interim financial statements. Management has determined that the Company operates in one business segment, namely as an investment adviser managing mutual funds, separate accounts, and private investment funds.

## Cash and Cash Equivalents

Cash and cash equivalents include demand deposits and money market funds.

## Accounts Receivable

Accounts receivable are recorded when they are due and are presented in the balance sheet, net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated based on the Company s historical losses, existing conditions in the industry, and the financial stability of those individuals or entities that owe the receivable. No allowance for doubtful accounts was deemed necessary at March 31, 2007 or December 31, 2006.

## Note 2 Significant Accounting Policies (Continued)

## Valuation of Investment Portfolio

Investments in mutual funds are valued at their current net asset value. Investments in Private Funds are valued based on readily available market quotations. The market value adjustments on the investments are recorded in the Consolidated Statement of Income as investment returns.

#### Limited Partnership Interests

DHCM is the managing member of Diamond Hill General Partner, LLC, the General Partner of Diamond Hill Investment Partners, LP (DHIP II), each a limited partnership whose underlying assets consist of marketable securities. DHCM is investment in DHIP and DHIP II is accounted for using the equity method, under which DHCM is share of the net earnings or losses from the partnership is reflected in income as earned and distributions received are reflected as reductions from the investment. Several directors, officers and employees of the Company invest in DHIP and DHIP II through Diamond Hill General Partner, LLC. These individuals receive no remuneration as a result of their personal investment in DHIP or DHIP II. The capital of Diamond Hill General Partner, LLC is not subject to a management fee or an incentive fee.

## Property and Equipment

Property and equipment, consisting of computer equipment, furniture, and fixtures, is carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated lives of three to seven years.

## **Treasury Stock**

Treasury stock purchases are accounted for under the cost method. The subsequent issuances of these shares are accounted for based on their weighted-average cost basis.

## Revenue Recognition

The Company earns substantially all of its revenue from investment advisory and fund administration services. Mutual fund investment advisory and administration fees, calculated as a percentage of assets under management, are recorded as revenue as services are performed. Managed account and private investment fund clients provide for monthly or quarterly management fees, in addition to quarterly or annual performance fees.

EITF Abstract Topic No. D-96, Accounting for Management Fees Based on a Formula, identifies two methods by which incentive revenue may be recorded. Under Method 1, incentive fees are recorded at the end of the contract period; under Method 2, the incentive fees are recorded periodically and calculated as the amount that would be due under the formula at any point in time as if the contract was terminated at that date. Management has chosen the more conservative method (Method 1), in which incentive fees are recorded at the end of the contract period for the specific client in which the incentive fee applies. All clients have a contractual period that ends on December 31. Some clients also have a contractual period that ends on each calendar quarter end.

## Note 2 Significant Accounting Policies (Continued)

## Revenue Recognition Mutual Fund Administration

DHCM has an administrative, fund accounting and transfer agency services agreement with Diamond Hill Funds, an Ohio business trust, under which DHCM performs certain services for each series of the trust. These services include mutual fund administration, accounting, transfer agency and other related functions. For performing these services, each series of the trust compensates DHCM a fee at an annual rate of 0.36% for Class A and Class C shares and 0.18% for Class I shares times each series—average daily net assets. In fulfilling its role under this agreement, DHCM has engaged several third-party providers, and the cost for their services is paid by DHCM. A portion of these expenses could, and are typically, paid for directly by the Funds and are classified below as—fund related. These expenses include, among others, fund custody, registration fees, legal and audit fees. DHCM—s agreement, however, requires that DHCM pay for all fund administration expenses, including those that could be paid directly by the Funds. In addition, DHCM finances the up-front commissions paid to brokers who sell C shares of the Diamond Hill Funds. As financer, DHCM advances the commission to the selling broker at the time of sale. This commission advance is capitalized and amortized over 12 months to correspond with the payments DHCM receives from the principal underwriter to recoup this commission payment. Mutual fund administration ( admin ) gross and net revenue are summarized below:

	Three Months Ended March 3		
	2007	2006	
Mutual fund admin revenue, gross	\$ 2,036,346	\$ 1,043,371	
Mutual fund admin, fund related expense	576,821	477,451	
Mutual fund admin revenue, net of fund related expenses	1,459,525	565,920	
C-Share broker commission advance repayments	412,200	245,520	
C-Share broker commission amortization	402,684	226,208	
C-Share financing activity, net	9,516	19,312	
Mutual fund administration revenue, net	\$ 1,469,041	\$ 585,232	

#### **Income Taxes**

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the various temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

In June 2006, the FASB issued interpretation No. 48, Accounting for the Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies certain aspects of accounting for uncertain tax positions, including issues related to the recognition and measurement of those tax positions. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006. Management is currently evaluating the potential impact of the adoption of this interpretation.

## Earnings Per Share

Basic earnings per share ( EPS ) excludes dilution and is computed by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of EPS that could occur if options, warrants, and restricted stock units to issue common stock were exercised.
