Electronic Message from Dr. Christian Bruch to Linde Engineering Employees

Subject: Year-end message from Christian Bruch

Dear colleagues,

An eventful 2016 for Linde Engineering will soon come to an end. Thanks to your dedication, this year we were able to win important contracts, open 50 construction sites and put more than 40 plants into operation. I would like to sincerely thank you for your commitment, loyalty and flexibility which have made these successes possible.

At the same time, we are faced with a challenging market environment. Our customers are still hesitant to make investment decisions and the competition for contracts has increased significantly over recent years. With the update of the LE strategy, we have set the focus that will enable us to continue to be successful in the future. We will improve our competitiveness with the initiated measures, update our portfolio and sharpen the profile of Linde Engineering in the eyes of our customers. In addition, we intend to make even greater use of the possibilities offered by digitalisation. Together with our contribution to the Group-wide LIFT efficiency programme, these initiatives will help to ensure Linde Engineering's profitability in a difficult environment during the coming years.

Yesterday we informed you that we agreed with Praxair on a non-binding term sheet for a potential merger of equals, which will now form the basis for further negotiations. The opportunity here is to create a leading gas company that can work with a broader global focus and a strong financial position, and is stronger than the two individual companies by themselves. Linde Engineering could also benefit from the expanded market access and the improved competitive position in the gases sector.

We intend to carve out our Engineering Division into a wholly-owned subsidiary of Linde which will give us a chance to strengthen our established global brand and our solid position as the preferred supplier for Linde Gas. The successful implementation of our efficiency programme will not only help to safeguard the best possible position in the negotiations, but to secure our competitiveness in the long run.

I understand that this phase of change can lead to uncertainty that can also preoccupy you during your day-to-day work. A lot of concern has arisen over the last several months due to the discussions in connection with the efficiency programme, the potential merger with Praxair and external press coverage for which I would like to personally apologise. But these changes are necessary and will help to sustainably strengthen Linde Engineering's position. We can face the competition with confidence because we have outstanding professional competence, excellent processes

and a dedicated team. Even if the market situation is difficult – and this will remain to be the case in the foreseeable future – we can and will continue to celebrate successes together.

With your support and daily commitment, together we can once again do everything possible to make our company a market leader in 2017. I look forward to working with you in the new year, and wish you all peaceful holidays with family and friends.

Best regards,

Christian Bruch

These forward-looking statements include, but are not limited to, statements regarding benefits of the proposed business combination, integration plans and expected synergies, and anticipated future growth, financial and operating performance and results. Forward-looking statements involve risks and uncertainties that may cause actual results to be materially different from the results predicted or expected. No assurance can be given that these forward-looking statements will prove accurate and correct, or that projected or anticipated future results will be achieved. Factors that could cause actual results to differ materially from those indicated in any forward-looking statement include, but are not limited to: the expected timing and likelihood of the entry into, or the completion of the contemplated business combination, including the timing, receipt and terms and conditions of any required governmental and regulatory approvals of the contemplated business combination that could reduce anticipated benefits or cause the parties not to enter into, or to abandon the transaction; the occurrence of any event, change or other circumstances that could give rise to the termination of the proposed business combination agreement; the ability to successfully complete the proposed business combination and the exchange offer; regulatory or other limitations imposed as a result of the proposed business combination; the success of the business following the proposed business combination; the ability to successfully integrate the Praxair and Linde businesses; the possibility that Praxair stockholders may not approve the proposed business combination agreement or that the requisite number of Linde shares may not be tendered in the public offer; the risk that the parties may not be able to satisfy the conditions to closing of the proposed business combination in a timely manner or at all; risks related to disruption of management time from ongoing business operations due to the proposed business combination; the risk that the announcement or consummation of the proposed business combination could have adverse effects on the market price of Linde’s or Praxair’s common stock or the ability of Linde and Praxair to retain customers, retain or hire key personnel, maintain relationships with their respective suppliers and customers, and on their operating results and businesses generally; the risk that New Holdco may be unable to achieve expected synergies or that it may take longer or be more costly than expected to achieve those synergies; state, provincial, federal and foreign legislative and regulatory initiatives that affect cost and investment recovery, have an effect on rate structure, and affect the speed at and degree to which competition enters the industrial gas, engineering and healthcare industries; outcomes of litigation and regulatory investigations, proceedings or inquiries; the timing and extent of changes in commodity prices, interest rates and foreign currency exchange rates; general economic conditions, including the risk of a prolonged economic slowdown or decline, or the risk of delay in a recovery, which can affect the long-term demand for industrial gas, engineering and healthcare and related services; potential effects arising from terrorist attacks and any consequential or other hostilities; changes in environmental, safety and other laws and regulations; the development of alternative energy resources; results and costs of financing efforts, including the ability to obtain financing on favorable terms, which can be affected by various factors, including credit ratings and general market and economic conditions; increases in the cost of goods and services required to complete capital projects; the effects of accounting pronouncements issued periodically by accounting standard-setting bodies; conditions of the debt and capital markets; market acceptance of and continued demand for Linde’s and Praxair’s products and services; changes in tax laws, regulations or interpretations that could increase Praxair’s, Linde’s or New Holdco’s consolidated tax liabilities; and such other factors as are set forth in Linde’s annual and interim financial reports made publicly available and Praxair’s and New Holdco’s public filings made with the SEC from time to time, including but not limited to those described under the headings “Risk Factors” and “Forward-Looking Statements” in Praxair’s Form 10-K for the fiscal year ended December 31, 2015, which are available via the SEC’s website at [www.sec.gov](http://www.sec.gov). The foregoing list of risk factors is not exhaustive. These risks, as well as other risks associated with the contemplated business combination, will be more fully discussed in the proxy statement/prospectus and the offering prospectus that will be included in the Registration Statement on Form S-4 or Form F-4 that will be filed with the SEC and in an offering document and/or

any prospectuses or supplements to be filed with BaFin in connection with the contemplated business combination. In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than Linde, Praxair or New Holdco has described. All such factors are difficult to predict and beyond our control. All forward-looking statements included in this document are based upon information available to Linde, Praxair and New Holdco on the date hereof, and each of Linde, Praxair and New Holdco disclaims and does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
