INFORMATION STATEMENT

Introductory Statement

Sanswire Corp. is a Delaware corporation with its principal executive offices located at 101 NE 3rd Ave., Suite 1500, Fort Lauderdale, Florida 33301. Our telephone number is (954) 332-3759. This Information Statement is being sent to our shareholders by our Board of Directors to tell you about action the holders of a majority of our outstanding shares of common stock have taken by written consent, in lieu of a special meeting of the shareholders. The action was taken on November 2, 2009, and will be effective when we file a certificate of amendment to our articles of incorporation with the State of Delaware.

We expect to file an amendment to increase our authorized common stock from 250,000,000 shares to 500,000,000 shares on or about December 21, 2009

Copies of this Information Statement are being mailed on or about December 1, 2009 to the holders of record on November 2, 2009 of the outstanding shares of our common stock.

General Information

On August 6, 2009, our Board of Directors authorized and approved, subject to shareholder approval, an increase in our authorized common stock from 250,000,000 shares to 500,000,000 shares, which our Board of Directors deemed to be in the best interests of our company and our shareholders. Our Board of Directors further authorized the preparation and circulation of this Information Statement and a shareholders' consent to the holders of a majority of our outstanding voting capital stock.

We have two classes of voting securities, our common stock, of which each share is entitled to one vote, and our Preferred Stock, of which 100,000 shares of Series E Preferred Stock are outstanding. As of November 2, 2009, there were 249,115,902 shares of common stock and 100,000 shares of Series E Preferred Stock outstanding. The consent of shareholders holding more than 50% of the votes entitled to be cast approved the increase in our authorized common stock.

Description of Our Capital Stock

Common Stock

Holders of our common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. Accordingly, holders of a majority of the shares of our common stock entitled to vote in any election of directors may elect all of the directors standing for election. Subject to preferences that may be applicable to any shares of preferred stock outstanding at the time, holders of our common stock are entitled to receive dividends ratably, if any, as may be declared from time to time by our board of directors out of legally available funds.

Upon our liquidation, dissolution or winding up, the holders of our common stock are entitled to receive ratably, net assets available after the payment of

- o all secured liabilities, including any then outstanding secured debt securities which we may have issued as of such time,
- o all unsecured liabilities, including any then outstanding unsecured debt securities which we may have issued as of such time, and
- o all liquidation preferences on any then outstanding preferred stock.

Holders of our common stock have no preemptive, subscription, redemption or conversion rights, and there are no redemption or sinking fund provisions applicable to the common stock. The outstanding shares of our common stock are duly authorized, validly issued, fully paid and nonassessable. The rights, preferences and privileges of holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock which we may designate and issue in the future.

We currently have 250,000,000 shares of common stock authorized. As of November 2, 2009, 249,115,902 shares of common stock are outstanding.

Preferred Stock

Our board of directors is authorized, without further shareholder approval, to designate and issue shares of preferred stock in one or more series. Our board may fix the rights, preferences, privileges and restrictions of these shares, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, and to fix the number of shares constituting any series and the designations of these series. These shares may have rights senior to our common stock. The issuance of preferred stock may have the effect of delaying or preventing a change in control of us. The issuance of preferred stock could decrease the amount of earnings and assets available for distribution to the holders of common stock or could adversely affect the rights and powers, including voting rights, of the holders of our common stock.

On May 3, 2009, the Board of Directors approved the creation of a Series E Preferred Stock. The terms of the Series E Preferred Stock were subsequently amended on May 14, 2009. The Series E Preferred Stock, as amended, does not pay dividends but each holder of Series E Preferred Stock shall be entitled to 21.5 votes for each share of common stock that the Series E Preferred Stock shall be convertible into. The Series E Preferred Stock, as amended, has a conversion price of \$0.105 and a stated value of \$6.26. Each share of Series E Preferred Stock is convertible, at the option of the holder, into such number of shares of common stock of the Company as determined by dividing the Stated Value by the Conversion Price. The Series E Preferred Stock has no liquidation preference.

Edgar Filing: Sanswire Corp. - Form DEF 14C

On May 5, 2009, the Company entered into a conversion agreement with Rocky Mountain Advisors Corp., a consultant to the Company wholly owned by Thomas Seifert (“RMAC”), pursuant to which the Company agreed to convert \$185,387 in consulting fees owed to RMAC for consulting services performed from October 19, 2007 to April 9, 2009 into 29,615 shares of Series E Preferred Stock, par value \$0.001 per share.

On May 5, 2009, the Company entered into a conversion agreement with Daniyel Erdberg, the Company’s Vice President of Operations, pursuant to which the Company agreed to convert \$121,487.99 in outstanding wages owed to Mr. Erdberg from July 1, 2008 to April 3, 2009 into 19,407 shares of Series E Preferred Stock.

On May 5, 2009, the Company entered into a conversion agreement with Jonathan Leinwand, the Chief Executive Officer, pursuant to which the Company agreed to convert \$ 319,118.85 in outstanding wages owed to Mr. Leinwand from October 17, 2007 to April 3, 2009 into 50,978 shares of Series E Preferred Stock.

Anti-Takeover Effects of Our Capitalization and Delaware Law

Certain provisions of our articles of incorporation and Delaware law may be deemed to have anti-takeover effects and may delay, defer or prevent a take-over attempt of us.

Additional authorized common stock

The proposed increase in the authorized number of shares of our common stock could have an anti-takeover effect in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of our company more difficult. For example, additional shares could be issued by us so as to dilute the stock ownership or voting rights of persons seeking to obtain control of our company. Similarly, the issuance of additional shares to certain persons allied with our management could have the effect of making it more difficult to remove our current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. Except as further discussed herein, the Board of Directors is not aware of any attempt, or contemplated attempt, to acquire control of our company, and this proposal is not being presented with the intent that it be utilized as an anti-takeover device.

Blank check preferred stock

Our articles of incorporation authorize the issuance of up to 10,000,000 shares of preferred stock with such rights and preferences as may be determined from time to time by our board. Of these shares 100,000 have been designated as Series E Preferred Stock. The remaining shares of preferred stock are without designation and available for issuance.

Our board may fix the rights, preferences, privileges and restrictions of preferred shares, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, and to fix the number of shares constituting any series and the designations of these series. These shares may have rights senior to our common stock. The issuance of preferred stock may have the effect of delaying or preventing a change in control of us.

Delaware law

Certain provisions of the Delaware General Corporation Law have anti-takeover effects and may inhibit a non-negotiated merger or other business combination. These provisions are intended to encourage any person interested in acquiring our company to negotiate with, and to obtain the approval of, our Board of Directors in connection with such a transaction. However, certain of these provisions may discourage a future acquisition of our company, including an acquisition in which the shareholders might otherwise receive a premium for their shares. As a result, shareholders who might desire to participate in such a transaction may not have the opportunity to do so.

Delaware's "combination with interested stockholders" statute and "control share acquisition" statute may have the effect of delaying or making it more difficult to effect a change in control of our company.

The combination with interested stockholders statute prevents an "interested stockholder" and an applicable Delaware corporation from entering into a "combination," unless certain conditions are met. A combination is defined to mean, among other things:

- o merger or consolidation with an interested stockholder;
- o sale, lease, exchange, mortgage, pledge, transfer or other disposition, in one transaction or a series of transactions with an interested stockholder having an aggregate market value equal to 5% or more of the aggregate market value of the assets of a corporation, 5% or more of the aggregate market value of all outstanding shares of a corporation, or representing 10% or more of the earning power or net income of the corporation;

o adoption of a plan or proposal for the liquidation or dissolution of a corporation proposed by an interested stockholder; o reclassification, recapitalization, merger, or consolidation proposed by an interested stockholder; or o receipt by an interested stockholder of any loan, advancement, guarantee, pledge, or other financial assistance or any tax credit or other tax advantage provided by or through a corporation.

An "interested stockholder" means the beneficial owner of 10% or more of the voting shares of a corporation, or an affiliate or associate. A corporation may not engage in a combination with an interested stockholder for a period of three years from the date of the acquisition by the interested stockholder of its shares in the corporation unless the combination or purchase of shares made by the interested stockholder is approved by the Board of Directors before the interested stockholder acquired such shares. If such approval is not obtained, after the expiration of the three-year period, the business combination may be consummated with the approval of the Board of Directors or a majority of the voting power held by disinterested stockholders, or if the consideration to be paid by the interested stockholder is at least equal to the highest of:

- o the highest price per share paid by the interested stockholder within the three years immediately preceding the date of the announcement of the combination or in the transaction in which he became an interested stockholder, whichever is higher; or

- o the market value per common share on the date of announcement of the combination or the date the interested stockholder acquired the shares, whichever is higher.

Delaware's Control Share Acquisition Statute prohibits an acquirer, under certain circumstances, from voting shares of a target corporation's stock after crossing certain threshold ownership percentages, unless the acquirer first obtains approval from the target corporation's stockholders.

Once an acquirer crosses one of the above thresholds, such shares so acquired, along with those shares acquired within the preceding 90 days, become control shares, which shares are deprived of the right to vote until such time as the disinterested shareholders of the corporation restore such right. The Control Share Acquisition Statute also provides that in the event control shares are accorded full voting rights and the acquiring person has acquired a majority or more of all voting power of the corporation, any shareholder of record who has not voted in favor of authorizing voting rights for the control shares may demand payment for the fair value of such shareholder's shares. In such case, the corporation is required to comply with the demand within 30 days of the delivery thereof to the corporation.

The control share statute applies to the acquisition of a controlling interest in a Delaware corporation which does business in Delaware (directly or through an affiliated corporation) and which has 200 or more stockholders of record, at least 100 of whom are residents of Delaware. We do not believe that the control share statute is presently applicable to us because we do not presently conduct business in Delaware. However, if in the future we do conduct business in Delaware then such provisions may apply.

Proposed Amendment to Our Articles of Incorporation

The proposed amendment would change Article Fourth only by increasing the number of authorized shares of common stock as shown in italics in the following restatement of Article Fourth:

FOURTH: The total number of shares of stock which the Corporation shall have the authority to issue is 510,000,000 of which 500,000,000 shares shall be designated “Common Stock”, \$.00001 par value per share and of which 10,000,000 shall be designated “Preferred Stock”, par value \$.001. Shares of Preferred Stock may be issued from time to time in one or more classes or series, each having such powers, attributes, rights and preferences, if any, as are stated or expressed herein or in resolutions of the Board of Directors of the Corporation designating such class or series.

The total number of shares of stock of each class which the Corporation shall have authority to issue and the par value of each share of each class of stock are as follows:

Class	Par Value	Authorized Shares	Total
Common	\$ 0.00001	500,000,000	\$ 5,000
Preferred	\$ 0.001	10,000,000	\$ 10,000
Totals:		510,000,000	\$ 15,000

The amendment will become effective upon the filing of articles of amendment with the Delaware Secretary of State.

The amendment to our articles of incorporation will authorize 500,000,000 shares of common stock to be issued, instead of the 250,000,000 shares now authorized. The amendment will not change other provisions of Article Fourth. The relative rights and limitations of the common stock would remain unchanged. Neither common stock, nor the preferred stock that could be issued by the Board of Directors, has or would have preemptive rights. Cumulative voting is not and would not be permitted in the election of directors.

Purpose and Effect of Increasing Our Authorized Common Stock

By a written consent of holders of holding in excess of 51% of our outstanding common stock dated November 2, 2009, in lieu of a special meeting, our shareholders approved an amendment to our articles of incorporation to increase our authorized common stock to 500,000,000 shares.

The purpose for the increase in the authorized common stock is to enable us, without further shareholder approval, to issue shares from time to time as may be required for proper business purposes, such as raising additional capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes, including meeting our obligations to issue common stock under outstanding agreements, options and warrants.

Future Capital Raising and Other Corporate Purposes

We believe that part of our business strategy will require us to raise capital to further our business strategy through the issuance of additional capital stock. Although as of the present time we do not have immediate plans for raising additional equity capital, we believe that, to avoid delays in the event additional funds are needed, we would need to

provide now for sufficient authorized capital stock to complete such potential transactions and avoid the shareholder approval process needed to change our capital structure as part of any such transaction.

The unissued and unreserved shares of our common stock will also be available for any proper corporate purpose, as authorized by our Board of Directors, without further approval by our shareholders, except as otherwise required by law.

Existing Obligations to Issue Common Stock

We are obligated under various existing agreements to issue additional shares of our common stock. The number of shares that we are currently obligated to issue exceeds the number of shares of common stock that we are authorized to issue.

As of November 2, 2009, we had 249,115,902 shares of our common stock outstanding. After issuance of all shares of common stock that we are obligated to issue, and if all of our outstanding options and warrants are exercised, we will have approximately 317,160,268 shares outstanding.

After the increase in our authorized common stock, our board will have the ability, without further shareholder approval, to issue up to approximately 183,000,000 additional shares of common stock. Such issuance may result in a reduction of the book value or market price of our outstanding common stock. Issuance of additional common stock will reduce the proportionate ownership and voting power of our then existing shareholders.

The description below summarizes our outstanding common stock, obligations to issue common stock and warrants as of November 2, 2009.

STOCK OPTIONS

During the nine months ended September 30, 2009, the Company issued 19,672,222 options to acquire common stock. The Company recorded \$0 and \$1,707,780 of compensation expense related to these options to acquire common stock in the three and nine months ended September 30, 2009, respectively.

Employee options vest according to the terms of the specific grant and expire from 3 to 5 years from date of grant. As of September 30, 2009, all options issued and outstanding have fully vested. Stock option activity as of September 30, 2009 was as follows:

At September 30, 2009, all options shares and warrant shares were vested, and there is no unamortized cost to be recognized in future periods.

PREFERRED STOCK

On May 3, 2009, the Board of Directors approved the creation of a Series E Preferred Stock. The terms of the Series E Preferred Stock were subsequently amended on May 14, 2009. The Series E Preferred Stock, as amended, does not pay dividends but each holder of Series E Preferred Stock shall be entitled to 21.5 votes for each share of common stock that the Series E Preferred Stock shall be convertible into. The Series E Preferred Stock, as amended, has a conversion price of \$0.105 and a stated value of \$6.26. Each share of Series E Preferred Stock is convertible, at the option of the holder, into such number of shares of common stock of the Company as determined by dividing the Stated Value by the Conversion Price. The Series E Preferred Stock has no liquidation preference. The Company also cancelled all the authorized shares associated with the Series A, B, C, and D of Preferred Stock.

As of September 30, 2009, the Company has 100,000 shares of Series E Preferred Stock outstanding.

Certain Factors to Consider

The issuance of shares of our common stock, as described above, including the potential additional issuances upon conversion of our derivative securities, will cause immediate and substantial dilution to our existing shareholders.

We discuss below certain others factors with respect to our existing obligations to issue additional shares of our common stock that we believe are material to an investor's decision to invest in our common stock.

No Dissenters' Rights

Shareholders do not have the statutory right to dissent and obtain an appraisal of their shares under Delaware law in connection with the amendment to our charter to increase our authorized common stock.

Material Federal Income Tax Consequences

The following is a summary of the material Federal income tax consequences of the increase in our authorized shares of common stock. This summary is based on the Internal Revenue Code of 1986, as amended, regulations, rulings and judicial decisions currently in effect, all of which are subject to change.

The summary does not address all aspects of Federal income taxation that may apply to a shareholder because of his particular circumstances, and it does not discuss any special rules that may be applicable to some types of investors (for example, estates, trusts, individuals who are not citizens or residents of the United States, foreign corporations, insurance companies, regulated investment companies, tax-exempt organizations and dealers in securities). The summary does not cover the applicability and effect of any state, local or foreign tax laws.

The following discussion summarizing certain Federal tax consequences is based on current law. You should consult your own tax advisor as to the Federal, state, local and foreign tax effects in light of your individual circumstances.

- o You will not recognize any gain or loss as a result of the increase of our authorized common stock.

- o Your holding period in your common stock will include the holding period of your common stock that you currently hold.
