Quorum and Voting Requirements

Stockholders of record at the close of business on January 23, 2017 are entitled to receive notice and vote at the meeting. On the record date, there were 1,543,271,232 issued and outstanding shares of our common stock. Each holder of our common stock voting at the meeting, either in person or by proxy, may cast one vote per share of common stock held on each of the matters to be voted on at the meeting.

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of common stock entitled to vote constitutes a quorum for the transaction of business at the meeting. Assuming that a quorum is present, the following table summarizes the voting requirements to approve each proposal:

Proposal	Vote Required	Broker Discretionary Voting Allowed
<p>Proposal No. 1 – To approve a Certificate of Amendment to the Company's Amended and Restated Certificate of Incorporation to increase the number of authorized shares of the Company's common stock from 2,000,000,000 to 20,000,000,000 (the "Authorized Share Increase").</p>	<p>The affirmative vote of a majority of the outstanding shares of common stock.</p>	<p>Yes</p>
<p>Proposal No. 2 – To authorize an adjournment of the Special Meeting, if necessary, if a quorum is present, to solicit additional proxies if there are not sufficient votes in favor of the Authorized Share Increase (the "Adjournment Proposal").</p>	<p>The affirmative vote of a majority of the shares of common stock present in person or by proxy at the Special Meeting.</p>	<p>Yes</p>

Votes cast by proxy or in person at the meeting will be tabulated by the election inspectors appointed for the meeting. Such inspectors will also determine whether a quorum is present. The election inspectors will treat abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum, but as unvoted for purposes of determining the approval of any matter submitted to the stockholders for a vote. Accordingly, abstentions will have the same effect as a vote "AGAINST" Proposal No. 1 and "AGAINST" Proposal No. 2.

If your shares are held in street name and you do not instruct your broker on how to vote your shares, your brokerage firm, in its discretion, is permitted to either leave your shares unvoted or vote your shares on matters that are considered routine. The Company believes that each of Proposal No. 1 and Proposal No. 2 will be considered a routine matter. Consequently, without your voting instructions, your brokerage firm will be able to vote your shares on Proposal No. 1 and Proposal No. 2 in its discretion.

Table of Contents

Any such unvoted shares, called “broker non-votes,” refer to shares held by brokers who have not received voting instructions from their clients and who do not have discretionary authority to vote on non-routine matters. Broker non-votes will not be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Assuming that a quorum is present, broker non-votes (if any) will have the same effect as a vote “AGAINST” Proposal No. 1 at the Special Meeting. . Assuming that a quorum is present, broker non-votes (if any) will have no effect on the approval of Proposal No. 2 at the Special Meeting.

Voting of Proxies

When a proxy is properly executed and returned, the shares it represents will be voted at the Special Meeting as directed. If no specification is indicated, the shares will be voted:

- “FOR” Proposal No. 1 to approve a Certificate of Amendment to the Company's Amended and Restated Certificate (1) of Incorporation to increase the number of authorized shares of the Company’s common stock from 2,000,000,000 to 20,000,000,000; and
- (2) “FOR” Proposal No. 2 to authorize an adjournment of the Special Meeting, if necessary, if a quorum is present, to solicit additional proxies if there are not sufficient votes in favor of the Authorized Share Increase; and
- (3) at the discretion of your proxies on any other matter that may be properly brought before the Special Meeting.

Voting Confidentiality

Proxies, ballots and voting tabulations are handled on a confidential basis to protect your voting privacy. This information will not be disclosed, except as required by law.

Voting Results

Voting results will be announced at the Special Meeting and published in a Form 8-K to be filed within four (4) business days after the Special Meeting.

These forward-looking statements include but are not limited to statements and information concerning statements regarding:

the potential dilution of current shareholders of the Company if the Authorized Share Increase is approved and the Company issues shares of common stock upon conversion of its outstanding convertible notes and convertible preferred stock;

the market’s near and long term reaction to the Authorized Share Increase; and

statements regarding our intention to engage in future equity transactions, each as further provided and described below.

Any statements that involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often but not always using phrases such as “expects” or “does not expect”, “is expected”, “anticipates” or “does not anticipate”, “plans”, “budget”, “scheduled”, “forecasts”, “estimates”, “believes” or “intends” or variations of such words and phrases or stating that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, will occur or be achieved) are not statements of historical fact and may be forward-looking statements and are intended to identify forward-looking statements.

Forward-looking statements are subject to a variety of risks, uncertainties and other factors which could cause actual events or results to differ from those expressed or implied by the forward-looking statements, including, without limitation:

potential future decreases in the price of our common stock due to, among other things, the issuance of shares of common stock upon the conversion of our outstanding convertible preferred stock and convertible notes causing dilution of the common stock, the announcement of the Authorized Share Increase, our inability to make our common stock more attractive to a broader range of institutional or other investors, as a result of, among other things, investors viewing the Authorized Share Increase negatively or due to future financial results, market conditions, the market perception of our business, our inability to increase revenues and reduce costs or other factors adversely affecting the market price of our common stock, notwithstanding the Authorized Share Increase or otherwise

PROPOSAL NO. 1:

APPROVAL OF AN AMENDMENT TO THE COMPANY'S AMENDED
AND RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER
OF AUTHORIZED SHARES OF THE COMPANY'S COMMON STOCK

Overview

Our Board of Directors has adopted, declared advisable and is submitting for stockholder approval an amendment to our Amended and Restated Certificate of Incorporation to increase the number of authorized shares of our common stock from 2,000,000,000 to 20,000,000,000.

Form of the Authorized Share Increase

If stockholders approve this Proposal No. 1, the Company's Amended and Restated Certificate of Incorporation will be amended to increase the number of shares of common stock the Company is authorized to issue from 2,000,000,000 to 20,000,000,000. The par value of the common stock will remain at \$0.0001 per share. The amendment would amend the first sentence of Article 4 of the Company's Amended and Restated Certificate of Incorporation to read in its entirety as follows:

“The total number of shares of all classes of stock that the Corporation shall have authority to issue is twenty billion (20,000,000,000) shares of common stock, having a par value of \$0.0001 per share, and twenty-five million (25,000,000) shares of preferred stock, having a par value of \$0.0001 per share.”

The remaining text of Article 4 of the Company's Amended and Restated Certificate of Incorporation will remain unchanged. The form of the amendment is attached to this Proxy Statement as Appendix A.

Purpose of the Authorized Share Increase

The Board is recommending this increase in authorized shares of common stock primarily to give the Company appropriate flexibility to issue shares in the future. The additional shares would provide the Company greater flexibility to settle our obligations under our outstanding convertible notes and outstanding convertible preferred stock by allowing us to issue shares rather than make payments in cash. The additional shares would also permit the Company to issue shares for general corporate purposes and to provide for future corporate needs. The shares may be issued by the Board in its discretion, subject to any further stockholder action required in the case of any particular issuance by applicable law, regulatory agency, or under the rules of any stock exchange or stock market on which the Company's common stock is then listed or traded.

The newly authorized shares of common stock would be issuable for any proper corporate purpose, including issuances of shares (rather than cash payments) to settle our obligations on our outstanding convertible notes and outstanding convertible preferred stock, future acquisitions, investment opportunities, capital raising transactions of

Table of Contents

equity or convertible debt securities, stock splits, stock dividends, issuance under current or future equity compensation plans, employee stock plans and savings plans or for other corporate purposes.

Other than issuing shares (in lieu of making cash payments) on our outstanding convertible notes and outstanding convertible preferred stock, there are no immediate agreements, plans, arrangements, commitments or understandings with respect to issuance of any of the additional shares of common stock that would be authorized by the proposed amendment. However, the Board believes that these additional shares will provide the Company with needed ability to issue shares in the future to take advantage of market conditions or favorable opportunities without the potential expense or delay incident to obtaining stockholder approval for a particular issuance.

As of January 20, 2017, we had 2,000,000,000 shares of common stock authorized for issuance under our Certificate of Incorporation, of which 1,543,271,232 shares of our common stock were outstanding. As described below, we may issue large amounts of additional shares as follows in connection with our existing outstanding convertible securities and our existing compensation plans:

672,208 shares of common stock for issuance in connection with our various employee benefit and compensation plans;

222,145,666 shares of common stock for issuance in connection with the conversion of the Company's Series A preferred stock*;

50,110 shares of common stock for issuance in connection with the exercise of outstanding rights to acquire common stock issued to certain investors;

101,880,208 shares of common stock for issuance in connection with the conversion of the Company's outstanding Series E preferred stock*;

153,134,921 shares of common stock for issuance in connection with the conversion of the Company's outstanding Series F preferred stock*;

957,321,921 shares of common stock for issuance in connection with the conversion of the Company's outstanding Series G preferred stock*;

149,249,815 shares of common stock for issuance in connection with the conversion of the Company's outstanding Series J and Series J-1 preferred stock; and

2,712,695,857 shares of common stock for issuance in connection with the conversion of the Company's outstanding secured and unsecured convertible notes*.

* The share amounts shown as being potentially issuable are current estimates. The amount of shares that would actually be issued by the Company could be less or more than the amounts shown based upon a number of factors,

Table of Contents

including the then current trading market price for the Company's common stock. These convertible securities have a variable conversion price that is based upon a discount to the Company's common stock trading price as of the time of conversion. Accordingly, the number of potentially issuable shares will increase or decrease, respectively, as the trading market price for the common stock decreases or increases. The estimated amounts shown above have been calculated assuming that common stock would be issued by the Company (in accordance with and after giving effect to various discounted and other applicable pricing provisions of the applicable contracts) as of January 20, 2017. The share amounts shown above also assume the maximum number of common shares that could be issued under the applicable contracts. The applicable contracts contain a number of restrictions that limit the numbers of shares that could be issued in any particular time period or under any particular set of circumstances. The share estimates above do not give effect to those contractual restrictions.

Using the assumptions described above, we could be required to issue up to 4,297,150,706 additional shares of common stock pursuant to our existing plans, securities and contracts.

If the Authorized Share Increase is approved it will increase the number of shares of common stock available for issuance to settle our outstanding convertible notes and convertible preferred stock. Absent the availability of shares of common stock, the Company would be forced to settle the convertible notes by payment of the outstanding principal and accrued interest in cash, if available. Further, the Company would be forced to redeem outstanding shares of convertible preferred stock for cash. If the Company does not have sufficient cash to make such payments on the outstanding convertible notes and outstanding convertible preferred stock, the Company would be unable to continue operations if it cannot otherwise negotiate the settlement of such obligations.

For this reason, the Board determined that the Authorized Share Increase would give the Company greater flexibility in settling these securities by increasing the number of shares of common stock available for issuance.

Since inception, we have incurred losses and anticipate that we will continue to incur losses for the foreseeable future. To fund ongoing operations, therefore, we will need to rely on additional financings of our equity and convertible debt securities. If the Authorized Share Increase is not approved by our stockholders, our future financing alternatives will be severely limited by the lack of unissued and unreserved authorized shares of common stock. If the Company does not have unissued and unreserved authorized shares of common stock sufficient to facilitate future offerings of our equity and convertible debt securities, the Company may be unable to raise the amount of working capital needed to continue operations.

In addition, our success depends in part on our continued ability to attract, retain and motivate highly qualified management and operations personnel, and if the Authorized Share Increase is not approved by our stockholders, the lack of unissued and unreserved authorized shares of common stock to provide future equity incentive opportunities that the Compensation Committee of our Board deems appropriate could adversely impact our ability to achieve these goals. In short, the Board believes approval of this Proposal 1 is important to access the capital markets, attract, retain and motivate employees, and pursue other business opportunities integral to our growth and success.

The Company's Amended and Restated Certificate of Incorporation also authorizes the issuance of 25,000,000 shares of preferred stock. The proposed amendment does not increase the number of shares of preferred stock that the Company is authorized to issue.

Rights of Additional Authorized Shares

The additional authorized shares of common stock, if and when issued, would be part of the existing class of common stock and would have the same rights and privileges as the shares of common stock currently outstanding. Generally, our stockholders do not have preemptive rights with respect to our common stock. Accordingly, should the Board elect to issue additional shares of common stock, existing stockholders would not have any preferential rights to purchase the shares. We, however, have entered into agreements with several investors which grant such investors certain preemptive rights to purchase our securities.

Potential Risks and Adverse Effects of the Authorized Share Increase

Future issuances of common stock or securities convertible into common stock will have a significant dilutive effect on the earnings per share, book value per share, voting power and percentage interest of holdings of current stockholders. If the Authorized Share Increase is approved, our stockholders will experience significant dilution as a result of shares of common stock being issued pursuant to our outstanding convertible notes and outstanding convertible preferred stock. Further, due to our need to raise additional capital in order to fund continuing operations, our stockholders will also experience significant dilution as a result of shares of common stock being issued in connection with future financings that the Company may complete.

The Board cannot predict the effect of the Authorized Share Increase upon the market price for our shares of common stock.

The Authorized Share Increase will dramatically increase the number of authorized shares of common stock. A large amount of available shares of common stock could have adverse consequences, including but not limited to if the price of our common stock continues to decrease, the number of shares of common stock required to settle our convertible notes and our convertible preferred stock will continue to increase, and we may be required to issue a large number of shares of common stock to settle such conversions, which could massively dilute current stockholders, or if we run out of available authorized shares of common stock, we could be forced to make large cash payments, for which we may not have sufficient available capital.

Possible Anti-Takeover Implications of the Authorized Share Increase

The Company has no intent or plan to employ the additional unissued authorized shares as an anti-takeover device. As indicated above, the purpose of the Authorized Share Increase is to ensure that we have sufficient authorized common stock to, among other things, consummate future equity and convertible debt financings. However, the Company's authorized but unissued shares of common stock could be issued in one or more transactions that could make a change of control more difficult and therefore more unlikely.

Our Board did not propose the Authorized Share Increase in response to any effort known to our Board to accumulate common stock or to obtain control of the Company by means of a merger, tender offer or solicitation in opposition to management. Further, our Board does not currently contemplate recommending the adoption of any other amendments to our Certificate of Incorporation that could be construed as limiting the ability of third parties to take over or effect a change of control.

The issuance in the future of additional authorized shares of common stock may have the effect of diluting the earnings or loss per share and book value per share, as well as the ownership and voting rights of the holders of our then-outstanding shares of common stock. In addition, an increase in the number of authorized but unissued shares of

common stock may have a potential anti-takeover effect, as our ability to issue additional shares could be used to thwart persons, or otherwise dilute the stock ownership of stockholders, seeking to control us. The Authorized Share Increase is not being recommended by our Board as part of an anti-takeover strategy.

Effectiveness of the Authorized Shares Increase and Required Vote

If the proposed amendment is adopted, it will become effective upon the filing of a certificate of amendment to our Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware. The adoption of this amendment requires the approval of a majority of the outstanding shares of common stock.

PROPOSAL NO. 2:

ADJOURNMENT PROPOSAL

Overview

If at the Special Meeting the number of shares of common stock present or represented and voting in favor of the Authorized Share Increase is insufficient to approve the Authorized Share Increase, management may move to adjourn, postpone or continue the Special Meeting in order to enable the Board to continue to solicit additional proxies in favor of the Authorized Share Increase.

In this Adjournment Proposal, we are asking you to authorize the holder of any proxy solicited by the Board to vote in favor of adjourning, postponing or continuing the Special Meeting and any later adjournments. If the stockholders approve the Adjournment Proposal, we could adjourn, postpone or continue the Special Meeting, and any adjourned session of the Special Meeting, to use the additional time to solicit additional proxies in favor of the Authorized Share Increase. Among other things, approval of the Adjournment Proposal could mean that, even if proxies representing a sufficient number of votes against the Authorized Share Increase have been received, we could adjourn, postpone or continue the Special Meeting without a vote on the Authorized Share Increase and seek to convince the holders of those shares to change their votes to votes in favor of the Authorized Share Increase.

Required Vote

The Adjournment Proposal will be approved if a majority of the shares of common stock present in person or by proxy at the Special Meeting votes FOR the proposal. Accordingly, abstentions, if any, will be counted as votes AGAINST the Adjournment Proposal. No proxy that is specifically marked AGAINST the Authorized Share Increase will be voted in favor of the Adjournment Proposal, unless it is specifically marked FOR the discretionary authority to adjourn, postpone or continue the Special Meeting to a later date.

Recommendation

The Board believes that if the number of shares of common stock present or represented at the Special Meeting and voting in favor of the Authorized Share Increase is insufficient to approve such proposals, it is in the best interests of the stockholders to enable the Board, for a limited period of time, to continue to seek to obtain a sufficient number of additional votes to approve the amendment.

RECOMMENDATION OF THE BOARD OF DIRECTORS FOR PROPOSAL NO. 2:

THE BOARD RECOMMENDS A VOTE FOR THE PROPOSAL TO AUTHORIZE THE ADJOURNMENT OF THE SPECIAL MEETING, IF NECESSARY, IF A QUORUM IS PRESENT, TO SOLICIT ADDITIONAL PROXIES IF THERE ARE NOT SUFFICIENT VOTES IN FAVOR OF THE AUTHORIZED SHARE INCREASE.
